FACT SHEET**

BRIEF TITLE			REASON
Agreement			

DETAILS

Reason for Legislation
This is a license agreement with Alltel to locate telecommunications facilities on Parks department property at Star City Shores. The specific location is 27th and Highway 2. The lease is for 10 years with 3 five year options. The application is a extension of the existing tower which the City will own. This will be a 4 provider tower. The rent for placement of antennas on this extension is \$24,586 per year, beginning after 40 months, with Alltel paying all the costs of the installation. Alltel is the 4th provider locating on this pole. The Urban Design Committee had previously reviewed the application and approved it and all subsequent applications which are similar on this pole. The Parks Advisory Board has also approved this application.
Discussion (Including Relationship to other Council Actions)
This is a continuation of allowing telecommunication placements on City properties at locations that do not interfere with City functions. Where such placements are on City property, the City has much more ability to require that the goals of the City's wireless ordinance be met (colocation, stealth, etc).
